Planning your program with your Academic Advisor within the parameters of your OAS funding:

The expectation of the OAS is that grantees will finish their degree in the shortest possible amount of time. Please note that the number of months of extension cannot exceed the **minimum** time necessary to finish your degree or 24 months total, whichever is less. Please keep in mind that the OAS scholarship generally does not cover summer sessions or other official university breaks. Initial scholarships cover one academic year (generally 9 months) and the renewal grant also covers a second academic year (generally 9 months) or until completion of the degree, if earlier.
